

Sales Dashboard Project Report

This report presents the development of an interactive Sales Dashboard created using Power BI. The objective of this dashboard is to analyze sales performance, profit trends, and total orders across different categories and regions.

Key Insights from the Dashboard:

- Total Sales achieved: 2.30 Million
- Total Profit generated: 286.40 Thousand
- Total Orders recorded: 10,000
- Technology category shows highest sales performance.
- Sales trend analysis shows variation over different order dates.
